

Maidstone Trusted Trades Register

2009

Sponsored by:

The Joseph Rowntree Foundation

INTRODUCTION

This register has been produced because elderly and vulnerable people need access to home maintenance services from local reputable trades people.

It is compiled from recommendations supplied by carers, voluntary and community groups, Parish Councils, Churches and Voluntary Action Maidstone volunteers and clients.

Disclaimer

This register is purely an information guide and should be treated as such.

Entries are based on information supplied on a standard application form by the person listed including comments received by the person recommending the trader. Whilst all reasonable efforts are made to ensure the accuracy of the information contained in this register, this cannot be guaranteed. Voluntary Action Maidstone makes no representation or warranty regarding the accuracy of the information supplied nor the quality of service available from a firm or person listed.

PLEASE READ CAREFULLY BEFORE YOU EMPLOY SOMEONE

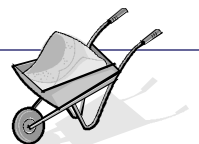

When deciding which trades person you employ, we suggest the following checks are made and written quotations are requested:

- The traders are listed in alphabetical order under each category not in order of preference, so consider carefully all the traders listed under each trade before asking for quotes.
- Take note of the comments in this registry - *“the comments from the customer are written in italics”*.
- Check if the price includes taking away the rubbish, debris or old equipment (this can be costly and troublesome for you).
- Some of the traders have said they are CRB checked - this means that they have previously worked with vulnerable people and have a Criminal Records Bureau check clearance.
- Do they have the correct trade qualification? (Essential when employing electricians, gas fitters and plumbers for example).
- What is the hourly rate and estimated length of time for the job? (The amount of work done in an hour can vary hugely and the highest rate is not necessarily the most expensive at the end of the job if the person works quickly and efficiently.)
- Or ... what is the price for the whole job?
- Ask if the price includes VAT
- Ask payment terms - most of the trades people in this register have told us that payment will be on completion of work unless it is a big job when they may want a deposit or stage payments. If you are asked for the whole amount beforehand then choose someone else!
